GHD|EMPHNET (Field Epidemiology Training Program )

## NATIONAL TECHNICAL OFFICER

### Responsibilities

- ➔ Working closely with the Afghanistan FETP to develop plan and proposals, implement and coordinate the FETP resident's class and fieldwork.
- ➔ Coordinating with instructors, facilitators and field supervisors and mentors to implement AFETP training activities and maintain their cooperation with the program.
- ➔ Working with ANPHI and other departments of the ministry to maintain their cooperation with the program and ensure availability of data for the trainees and their mentors and field supervisors.
- ➔ Preparing and coordinating the submission of all reports required by GHD|EMPHNET and FETP headquarters at CDC Atlanta.
- ➔ Attending in regular conference calls to report on activity progress with GHD in Amman.
- ➔ Facilitating sessions of didactic training in workshops and group works when needed and the trainers and facilitators are not available.
- ➔ Providing mentorship to residents for analysis of data related to surveillance and HIMS and other datasets.
- ➔ Providing technical guidance to residents in development of research/study protocols and implementation of individual or group field projects.
- ➔ Technically support the residents to develop abstracts for scientific conferences and reports of surveillance analysis, outbreak investigations and epidemiological studies.
- ➔ Encourage and support residents and graduates to actively take part in outbreak investigations and other public health emergencies.
- ➔ Provide direct and indirect supervision of residents in the field.
- ➔ Assist technical advisor of AFETP in development of strategic FETP documents for the country such as guidelines, SOPs, plans and concept notes.
- ➔ Providing guidance to update the existing training curricula and support with development of new training modules to address the national priorities and needs, and existing gaps.
- ➔ Translation of some documents and training materials to local language which is required for the AFETP program.

- Supervise, manage, assign duties, and monitor the performance of administrative and support staff.
- Manage administrative and financial functions in coordination with technical advisor of the program.
- Develop activity description and estimated budget for related activities and later on review, rectify and approve administrative and financial documents to be submitted to GHD|EMPHNET.
- Assist AFETP technical advisor, AFETP Director and ANPHI DG whenever required and perform other duties as assigned.
