

IDA AWARDS

INTERNATIONAL RESEARCH AWARDS ON INFECTIOUS DISEASES

CALL FOR PROFILE – INFECTIOUS AWARDS

About Awards: The International Research Awards on Infectious Diseases is an award program that recognizes and supports innovative research on infectious diseases around the world. The program aims to encourage and promote research that can help prevent, diagnose, and treat infectious diseases. The award is open to researchers working in all areas of infectious diseases, including virology, bacteriology, parasitology, and immunology. The program is designed to support both basic and applied research, with a focus on high-quality scientific research that has the potential to have a significant impact on the field of infectious diseases.

Objectives: International Research Awards on Infectious Diseases is designed to share and disseminate the latest knowledge and research findings related to infectious diseases. The event provides a platform for scientists, researchers, and healthcare professionals from around the world to present their research and discuss emerging issues, current challenges, and potential solutions. The event offers an opportunity for attendees to network, connect with peers and potential collaborators, and build partnerships for future research and clinical collaborations. These collaborations can lead to more effective strategies for combating infectious diseases.

Key Features and Excellent: Excellent Venue | Inspiring Speakers | Certificate | Medal | Memento | Stage Photograph | Awardees list on website.

Award Categories: Research Excellence Award | Young Scientist-Award | Best Researcher Award | Outstanding Scientist Award | Lifetime achievement Award | Women Researcher Award | Best Innovation Award | Best Faculty Award | Best Scholar Award | Excellence in Innovation | Excellence in Research | Excellence Award (Any Scientific field) | Best Research /Innovation Extension activity | Best Review Article Award | Most Cited Article Award | Most Cited Author Award | Most Liked Article Award | Most Tweeted Article Award | Most Read Article Award | Most Shared Article Award | Most Commended Article Award | Best Keynote Speaker | Best Committee Member | Fast Cited Article Award | Distinguished Scientist Award | Pioneer Researcher Award | Breakthrough Research Award | Most Cited Researcher Award | Best Academic Researcher Award | Outstanding Educator Award | Young Researcher Award | Young Innovator Award | Best Industrial Research Award | Industry Impact Award

Topics of Award Subjects include, but are not limited to: Animal Infectious Diseases, Zoonosis | Antimicrobial, Antibiotic, Antibacterial Resistance | Antimicrobial, Antibiotic, Antibacterial Stewardship | Antimicrobials, Antibiotics, Antibacterials | Blood Stream Infections, Bacteraemia, Septicaemia, Blood Poisoning | Causes and Symptoms of Infectious Diseases | Diagnosis of Infectious Diseases | Ebola and Zika Viral Infections | Epidemiology of Emerging and Re-Emerging Infectious Diseases | Global Trends in Emerging Infectious Diseases | Hepatitis | Immunology of Infections | Infectious Diseases Prevention, Control and Cure | Infectious Diseases Vaccines | Malaria | Mechanism of Resistance | Microbial Forensics and Molecular Basis of Bacteria | Microbial Pathogenesis and Virulence | Neuro Infectious Diseases | Nosocomial Infections, Hospital Acquired Infections, Health Care-Associated Infections | Pediatric Infectious Diseases, Childhood Infectious Diseases | Plant Disease Modelling and Parameter Estimation | Sepsis, Septicaemia | Sexually Transmitted Diseases, Sexually Transmitted Infections | Surgical Site Infections | Treatment for Infectious Diseases | Tuberculosis | Types of Infectious Diseases | Urinary Tract Infections | Vaccines and Vaccination | Others
